RA2 Select

Whole home lighting control made simple

HomeKit™ requires an iPhone®, iPad®, or iPod touch® with iOS 8.1 or later.

The main repeater enables RA2 Select components to work with HomeKit technology.

Controlling HomeKit-enabled accessories away from home requires an Apple TV® (3rd generation or later) with Apple TV software 7.0 or later and an iPhone, iPad, or iPod touch with iOS 8.1 or later.

⟐LUTRON

Introducing RA2 Select.
Personalized smart lighting, shade, and temperature control for any budget.
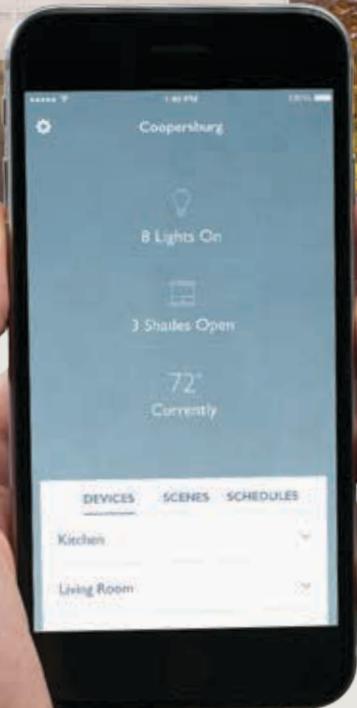

Why RA2 Select?

Simple. App-based setup, control, and monitoring; no training or PC required.

Fast. Pico scene keypads automatically configure typical lighting scenes based on the room and activity; no programming necessary.

Flexible. Scalable up to 100 devices, including 4 Lutron wireless repeaters to extend range throughout the home.
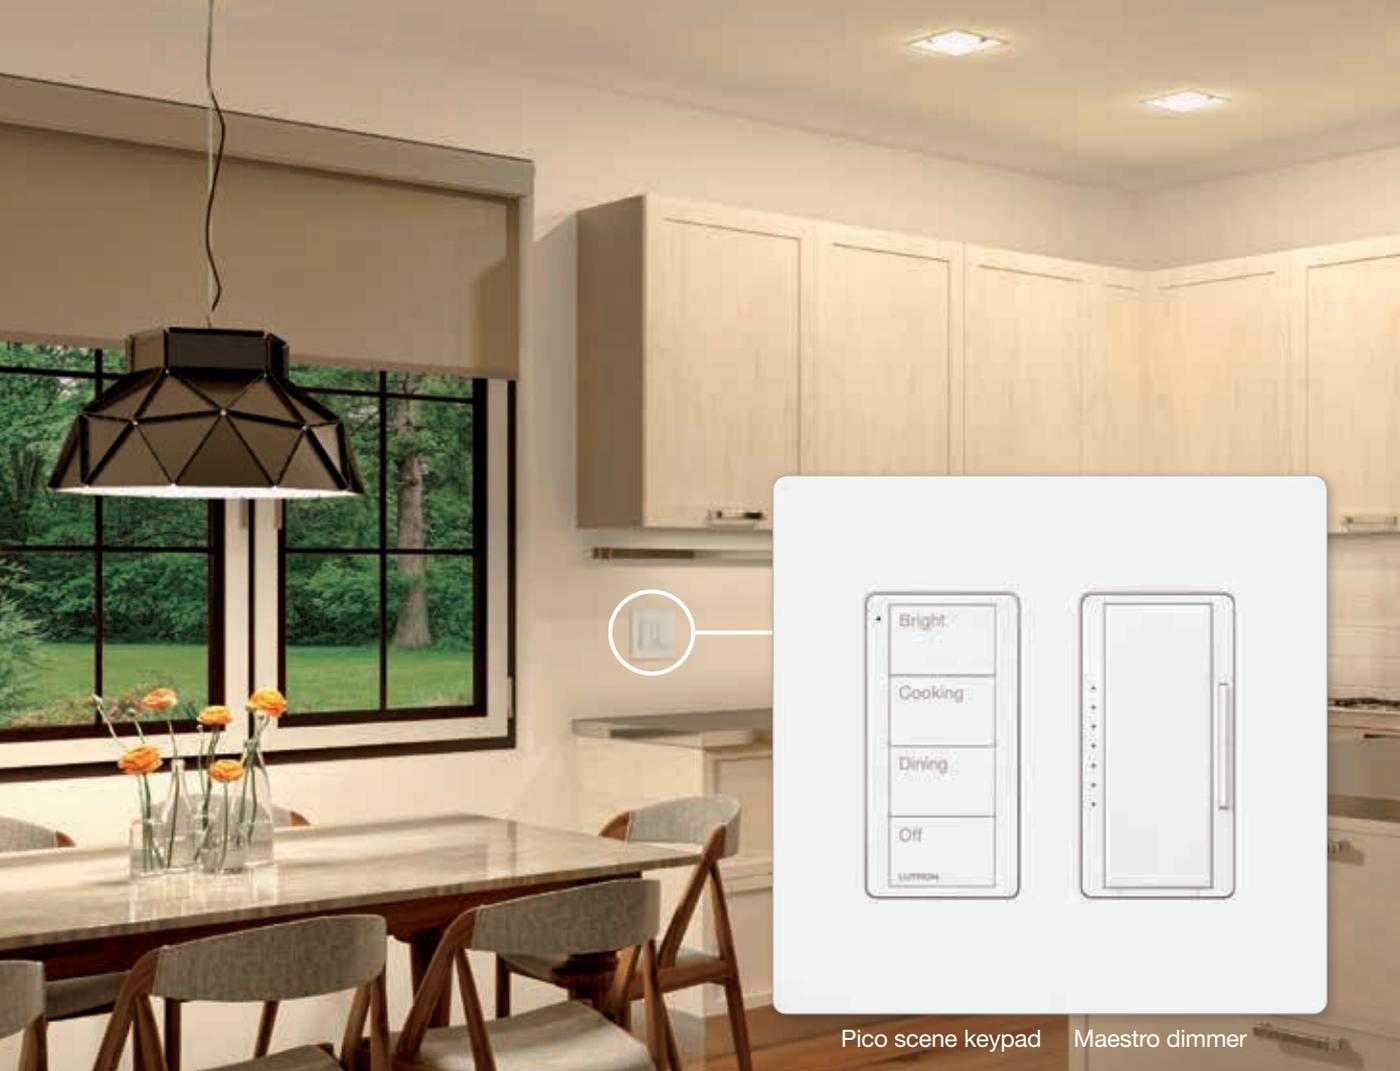

Pico scene keypad   Maestro dimmer

Transform a room

Easily set multiple lights and shades to just the right level, creating scenes for any activity. Scene keypads automatically configure to provide the best lighting for the task at hand.

In the kitchen, for example, lights and shades can adjust for cooking, a quiet dinner, or cleaning up.

	Ceiling lights	Island lights	Pendant	Shades
Bright	100%	100%	100%	Open
Cooking	100%	100%	50%	75% Open
Dining	20%	65%	50%	Half Open
Off	Off	Off	Off	Closed

Add control anywhere

Scene keypad

Remote control

The Pico is flexible, for control wherever it works best.

Mount it to a tabletop pedestal. Pedestals are available in single, double, and triple configurations.

Or mount it to a wall without cutting a hole or wiring anything. (Add a designer-style wallplate for a finishing touch.)

Smart home made simple

Three key app features that will make a homeowner's life easier:

Scheduling — automatically adjusts lights and shades at set times of day

Geofencing — controls lights based on your location.

This feature can turn lights on for you when you arrive home and notify you if you've left lights on when you leave.

Smart Away — randomly turns lights on and off in the evening, so it looks like you're home, even when you're not.

Setup made simple

Contractor setup in the Lutron app means you can bypass the homeowner registration process and quickly configure the system. The homeowner can register and access his system via an invitation from you. He can also access your contact information from the app if he needs professional support.

Expand the system

RA2 Select works with smart home solutions from other best-in-class brands, to add even more convenience to your customers' lives.

WORKS WITH amazon alexa

Amazon Alexa
Create just the right light using Alexa voice control. Ask Alexa to turn lights on, off, or dim them to your favorite level.

Works with Apple HomeKit
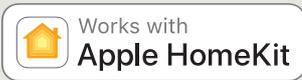

Apple® HomeKit™
The Smart Bridge contains Apple HomeKit technology, so you can use Siri® to control your lights and shades.

works with the Google Assistant

The Google® Assistant
Get the lights with just your voice. Smart lighting control is now available through any Google Assistant-enabled device.

WORKS WITH Honeywell

Honeywell Wi-Fi Thermostats
Choose from a wide variety of thermostat options to control the temperature in your home, from anywhere. Compatible with all Honeywell Wi-Fi thermostats, including Lyric Round and T Series.

logitech®

Logitech Harmony
Dim lights, lower shades, and start a movie with one button press on Logitech Harmony hub-based remote controls or from the Harmony app.

works with nest

Nest
Enhance comfort and peace of mind with the Nest family of products, including the Nest Cam, Nest Protect Smoke + CO alarm, and Nest Learning Thermostat.

WORKS WITH SmartThings®

Samsung SmartThings
Control lights and shades from the Samsung SmartThings app, and create new routines to tie in other smart devices like locks, sensors, cameras, and more.

SONOS — The Home Sound System

Sonos
Control your Sonos Home Sound System from a Pico remote control for audio, from scenes in the Lutron app, or from a Pico scene keypad. You can also control your lights using your voice via the Sonos One with Amazon Alexa.
